Federal Bill to provide School Psychologists and Social Workers in the Brazilian Education System

The International School Psychology Association (ISPA) strongly supports this effort of ABRAPEE, the National Association of School and Educational Psychologists in Brazil. We see this Federal Bill as part of our mission to advocate for and support children and young people across the world.

ISPA has been proud to promote the work of school psychologists world-wide since the early 1970s. In the past 30 years, ISPA membership has expanded to more than 50 countries. The association is strongly committed to improving healthy development and quality of life for children everywhere.

ISPA's involvement in children's right worldwide is also addressed by its engagement with the United Nations where it holds consultative status; over the years, ISPA has achieved recognition by the United Nations as an important non-governmental organization speaking on behalf of children and young people and their families.

Dr. Shane Jimerson
ISPA President
